Dear Parents
Greetings!

The number of cases of Covid-19 in the country is witnessing an alarming upward trend because of laxity in observation of Covid-19 precautions, low compliance for vaccination and false sense of confidence. It is imperative to re-emphasize on adherence to Covid-19 appropriate behavior.

In order to come out victorious from this all time toughest battle for existence, we all must do our bit to keep ourselves safe and also to break the chain.

- Avoid going out, unless necessary.
- Avoid gatherings or over crowded places.
- Always wear a mask, whenever going out.
- Always keep a safe distance of 2 yards while interacting and do not remove masks.
- Use the folds of your elbow while coughing or sneezing.
- Keep washing your hands regularly with soap or use sanitizers at regular intervals.

The fight against Covid-19 can be won only by doing our bit and protecting ourselves from getting infected.

We hope and pray for the well being of you and your family. May we all stay safe and protect ourselves from this life threatening virus!

God bless you all!!

Principal
